

DIGITAL PHOTO PRINTING

DEFINITION:

A print process where photographic/digital heat transfer paper is created utilizing a digital printer. Designs are then transferred from the paper to the ribbon in the same manner as a standard heat transfer print.

FEATURES:

- Extremely Durable
- Machine Washable, Dry Clean, Machine Dry (depending on ribbon substrate).
- Low minimum order requirements
- Good Choice for small orders
- High Quality Photo realism on ribbon
- No plate charge
- No charge for digital proof

APPLICATIONS:

- Wherever photographic images are desired
- Excellent for detailed designs and logos
- Ideal for packaging applications
- Great for specific occasions and corporate events
- Great for care labels

SPECIFICATIONS:

This is a four color digital printing process. Please note: colors can not be matched specifically to Pantone colors which are spot colors. We will match as close as possible to original art supplied.

- Narrowest width 5/8"
- Widest ribbon 4"
- Repeat 18"
- Two sided printing is available (please check with sales rep or print department for more specifics before printing on both sides of ribbon)

DELIVERY:

- Strike-off: 1 to 2 days
- Production: 2 weeks after approval of strike-off

MINIMUM:

- 100 yard minimum
